0-WEB.ru

- [x] [x] [x] [x] [x] Learn how to use data for machine learning with Google Cloud Platform. Get started with Google Cloud Platform, and understand how to prepare data and deploy machine learning models. Use machine learning to build recommendation systems, and analytics tools. No attached data sources. - [x] [x] [x] [x] [x] Use Google Data Studio to turn data into dashboards and report the analytics results. Add spark visualizations to your data sets. - [x] [x] [x] [x] [x] Develop, test, and deploy machine learning models with Google Cloud Platform and Visual Studio Code. No attached data sources. - [x] [x] [x] [x] [x] Build machine learning models for predicting the weather and for the stock market with Google Cloud Platform, ML Studio, and Analytics. Explore the data. No attached data sources. - [x] [x] [x] [x] [x] Build advanced analytics models with SQL and Data Studio. Learn how to use SQL, BigQuery, and other tools to analyze data and make predictions. No attached data sources. - [x] [x] [x] [x] [x] Learn to connect data sources to Google Cloud Platform and Data Studio. No attached data sources. - [x] [x] [x] [x] [x] Learn how to build an analytics model with Google BigQuery and Google Data Studio. Learn to connect to Google Cloud Platform services through the BigQuery API and BigQuery client library. No attached data sources. - [x] [x] [x] [x] [x] Use SQL to query and manage data. Explore data in data sources like Google BigQuery, GCS, and Cloud Storage. Use BigQuery to connect to Google Cloud Platform services and BigQuery to analyze and visualize data in Google Data Studio. No attached data sources. - [x] [x] [x] [x] [x] Learn to work with big data sources like Google Cloud Storage and BigQuery to learn about machine learning. Learn about machine learning and Spark with the Google Cloud ML Engine API. No attached data sources. - [x] [x] [x] [x] [x] 82157476af
